

# ADP® WORKFORCE SUITE FOR WORKDAY®

## CLIENT VOICE

"Arch Resources chose ADP WorkForce Suite because they offered new functionality that we wanted to add to our organisation, like helping automate time-off balances, employee self-services and FLSA compliance."

– Payroll Manager,  
Arch Resources

Workday transformed HR. ADP® WorkForce Suite transforms workforce management, controls labour, boosts productivity and simplifies compliance.

## Maximise your investment in Workday

You've modernised your business with Workday HCM. Now extend the value of your investment with ADP WorkForce Suite, providing advanced workforce management capabilities that delivers personalised automation for even the most complex pay and work rules for Workday users.

## Certified integration, proven results

- Workday-certified workforce management partner
- Real-time, bi-directional data flow for time, pay and people records
- Trusted by large, global and compliance-driven organisations
- ADP WorkForce Suite enhances ROI and lowers total costs, enabling you to realign investments on strategic priorities

## Why Workday customers choose ADP WorkForce Suite

ADP WorkForce Suite helps Workday customers maximise their HCM investment with specialised tools for frontline teams, simplifying complex rules and global compliance. We are a Strategic Workday Innovation Partner. More than 70 joint customers count on us to support the needs of organisations with large employee populations with accurate payroll.

### Global compliance at scale

Prebuilt templates and rule configurations for 35+ countries

### Faster time to value

Templated deployment model accelerates ROI and lowers IT burden

### Configurable for real-world complexity

Supports fatigue rules, CBAs and multi-job structures

### Frontline ready

Mobile-first design enables shift swaps, alerts and real-time updates

### Reduced manual work

Automation reduces exceptions, errors and approval delays

### Workday certified integration

Trusted and secure data exchange with your existing HCM backbone
